EXECUTIVE LEADERSHIP TEAM

DR. OLADAPO A. AJAYI – Executive Director, Consulting Solutions

As head of our consulting team, Dapo draws on two decades of experience in business consulting, operations and management as well as expertise in business research and solution engineering. He has worked with more than 20 companies implementing ERP solutions, improving business processes, and transforming enterprise structures, including for RBS, Vodafone, Volta River Authority, Medical Research Council, INC and ITV. His expert consulting provides organizations with a baseline financial analysis and process improvement for business model scalability and increased profitability. His work enables clients to maximize benefits realisation and business process improvement.

Dr. Ajayi, in addition to being a fully qualified Chartered Certified Accountant, holds both MBA and DBA degrees from the UK's Aston University. He is a member of the Beta Gamma Sigma society and an alumnus of Ernst and Young one of the premier management consultancies.

DANIEL O. ADIGUN – Executive Director, Solution Delivery

Oracle UK trained, Daniel has over 15 years experience working on some of the more complex ERP projects for many multinational and Public sector clients, including Cummins, SAPA Aluminium, DHL, BT, Thales and Merrill Lynch. An ardent advocate of high performance delivery.

Daniel is analytical in his approach to solution delivery and capable of quickly understanding complex business processes. He brings in-depth understanding of a variety of cultural environments and has good interpersonal skills. He is committed to achieving results and works hard to ensure successful completion of assignments. He is a qualified Chartered Certified Accountant and an honours graduate.

VICTOR A. TAIWO – Executive Director, Client Services

As director of client services, Victor brings to bear more than 15 years ERP systems design & implementation experience in leadership roles. He has vast international experience, having lived and worked in several European countries. His experience includes assignments leading, designing, training and supporting business transformation projects spanning a variety of industries. An alumnus of Oracle Corporation Victor, has helped dozens of high-profile and global companies with their ERP implementations, including Alcoa, Nike, Monarch Airlines, Oracle, KCI Medical and Ingersoll Rand.

In his early career, Victor worked in financial and management accounting positions, during which he gained invaluable knowledge of business process analysis, financial management and financial reporting. He is a graduate with an honours degree in Accounting and an alumnus of London Business School Senior Executive Programme.

getting Enterprise Systems working for you

SOLUTIONS . RESEARCHED . DELIVERED

Panafrique's enterprise systems consultants deliver change management. Successful implementation projects are less about the technology and more about people and processes. We help our clients develop, embed and sustain long term organisational changes to best realise the measurable business improvements made possible by their investment in new systems.

Panafric offers Oracle based enterprise solutions and ERP application development services. This includes blueprinting, best practice, industry specific solutions expertise.

We help you to improve processes & performance, using Oracle software.

Our mission is to deliver to a new standard of excellence for Enterprise Systems consulting.

tailored solutions for your enterprise needs

ONGOING SUPPORT

Using tried and tested methodologies, including Oracle Unified Method & CEMLI Framework, Prince2 and Agile, we provide expertise and support for all aspects of an implementation project, from software modules and module features selection to customization, business process modeling, change management, end-user training, solution testing and overall turn-key systems implementation.

CONSULTING & BUSINESS PROCESS MANAGEMENT

Consulting expertise in the following critical business areas.

- FINANCIAL MANAGEMENT
- HUMAN CAPITAL MANAGEMENT
- PROJECT PORTFOLIO MANAGEMENT
- SUPPLY CHAIN MANAGEMENT
- CUSTOMER RELATIONSHIP MANAGEMENT.
- PROCUREMENT PROCESS MANAGEMENT
- RISK & FINANCIAL GOVERNANCE (incl. IFRS)
- DATA WAREHOUSE & MANAGEMENT INFORMATION
- BUSINESS INTELLIGENCE & ANALYTICS

SYSTEMS IMPLEMENTATION & IT TRANSFORMATION

No matter what stage of implementation you're in, Panafrique Enterprise Consulting can guide you to success. We have extensive experience implementing Oracle based ERP solutions in both private and public sectors. Our team of experts will make certain that you gain the maximum benefit from your enterprise system investment.

Our team can help you transform management reporting through the integration of Oracle Business Intelligence (BI) and Oracle SOA Suite provides a significant advantage for us to enable Enterprise Reporting, with added expertise in the use of Business Objects and Qlikview for End User reporting via portals.

SYSTEMS PROJECT REVIEW & PROJECT RECOVERY

EBUSINESS SOLUTIONS

Often projects do not go as planned. Sometimes project scope creeps, the solution project team decides to customize too much, or the implementation partner is not able to get the job done. In these and other instances, Panafric can provide the direction, guidance, and hands-on project management to help you regain lost momentum, no matter the stage of the project.

From as little as a few days engagement, the Panafrique team can provide an independent and rapid evaluation of how to get your project back on track, with a focus on assessing and evaluating the key criteria required to deliver your systems project successfully.
